WALLPAPER IT

Wallpapered furniture is a great way to introduce pattern into the home without it appearing too overpowering.

THE LOWDOWN

For a professional finish, use a blade to cut the paper to size. Only cover the drawer fronts and sides of the chest – use a coordinating paint colour on all other areas. Mix wallpaper paste with a little wood glue for extra strength. Finish with two thin coats of clear varnish.

WORKS BEST ON

Cabinets, cupboards and drawers with a flat surface, as these pieces are much easier to work.

PRESSED FOR TIME?

If you don't want to wallpaper your own furniture, hire a local decorator to do the work for you. Alternatively, buy a ready-made papered piece – Neisha Crosland sells a beautiful range of furniture covered in wallpaper, with prices starting from £1,600 for a bedside table.
