Heirlooms

Inspired by the philosophy of lasting beauty and fine craftsmanship, Heirlooms has, for two decades, been manufacturing the finest bed, table and bathroom linens for interior designers, private homes, palaces, hotels and high end retailers. The company also supplies linen for the Royal Household and has recently been granted a Royal Warrant by The Queen. Offering a 'prêt a porter' collection of linens, as well as a bespoke service, all Heirlooms products are designed and manufactured on site by a small yet creative team. The majority of the products are made from Pure Egyptian Cotton Satin which has an indulgent 570-thread count making it wonderfully soft and luxurious. Customers can choose any size, shape, colour, trim and motif/logo to be incorporated into the design - the options are endless. Accessories to complement the linen, such as bathrobes and sponge bags, can also be produced.

Jocelyn Warner

Flora Wallpaper draws its inspiration from historical botanical prints and wall murals that highlight the flowering stems and branches of plants with the use of metallic gold's and silver's. Working this traditional artistry in with the modern technology of the computer, the resulting design is a print that looks photographically 3D with hand-painted and embellished like qualities
