Falling leaves

Close the door, draw the curtains and enjoy the natural effect of autumn from the comfort of your own home, with Jocelyn Warner's new range of seasonal wallpaper. Famous for contemporary, larger than life botanical prints, her three new designs (Fern, pictured, Blossom and Cascade) are available in a choice of five delicate colourways. So now you can bring the outside in without having to compromise on the cosiness of your living room.

Fern wallpaper in Chalk, £59 per 10m roll (52cm wide),
