SMALL MEASURES

Small kitchens can benefit from the diminutive proportions of the slim and discreet Sense Wi151 wine cabinet from Caple, measuring 15cm wide and ideal for utilising every inch of undercounter space. White LED interior lighting is both heat and UV free, ensuring that the aroma, flavour and wine structure remain undisturbed, while compressor-cooling technology ensures that the selected temperature is consistently maintained, irrespective of the ambient room temperature. Retailing at £250 the Sense Wi151 is created to store wine at a single temperature between 5-18°C, therefore it is ideal for storing either red or white wine.

BEAUTIFUL BOTANICS

Jocelyn Warner has expanded her portfolio with the launch of new rug, wallpaper and lighting designs. The Robina tree that grows in the garden-inspired Tree Tops is from the Garden collection (pictured), a reference to Jocelyn's signature style of contemporary larger-than-life botanics. All wallpapers in the Garden collection are printed on non-woven papers allowing for 'paste the wall' installation, which reduces the hanging time by half. Tree Tops is priced £79 per 10m roll.

A NEW DAWN

Making the best use of space in the UK's typically cramped bathrooms is a constant challenge to bathroom designers. With this in mind, Vitra has launched Sunrise, a new range of sanitaryware purposely designed to offer style in a restricted space but without losing function. The shape of the rising sun inspired German design studio NOA, which created the collection, and it is intended to make the morning routine a more pleasant experience. Sunrise comprises 10 basins, five WCs and a wall-hung bidet and prices start from £72.
