► Bend-it curtain suspension

The new Swish Modal curtain suspension system combines the decorative aspects of a curtain pole with the flexibility of an easily bendable curtain track. Ideal for awkward bay windows, it is made from high quality aluminium with nylon lined overhung gliders for smooth running. The brackets, which allow for face or top fixing, have a magnetic cover for smoothness. In two contemporary anodised finishes, brushed silver and brushed black, Modal comes in sizes from 240cm, to retail around £125.00, to 480cm, around £225.00 01543 271421. www.swishproducts.co.uk

▲ Pattern clash effects

Intense colours and folkloric designs with a contemporary slant are featured in Nono's new free-spirited Gypsy fabric collection. There are five mix and match designs, plus plains, in a palette highlighting deep jewel shades such as dark blues and rich reds, with flashes of hot pink, turquoise and tangerine. Romaneeya, pictured, is a zig-zag pattern in bands of velvet and taffeta, Gypsy (on cushions) is a multicoloured paisley, Suzani is an ornate circular motif, Zindello is a bold multicoloured horizontal stripe, and Electra is an allover diamond. Says Nono's Creative Director, Gill Nono: "This collection is ideal for creating striking pattern clash effects. To be on trend, schemes shouldn't be too 'matchy-matchy'. Use all the designs together in a patchwork effect for maximum impact." 0845 271 7333. www.nonodesigns.co.uk
