and cost effective in a minimal space such as an office that just requires a desk or a simply furnished guest bedroom. In this case, let the walls do the talking! Embrace colour, interesting textures or a themed motif and enjoy the effects of a big transformation that's simple to achieve. Patterned walls can also be a wonderful distraction. Add a fabulous or fun themed paper to an otherwise bland bathroom or a simple kitchen and its suddenly special.

Bathe a dining room in soft, natural light bounced from a paper with a mirror-like foil

Of course pattern can be subtle, refined and elegant too. Use it to gently draw attention to a focal point such as a fireplace in a living room. Bathe a dining room in soft, natural light bounced from a paper with a mirror-like foil or metallic background and pull together a comprehensive look by choosing a design that complements your furniture in tone and style.
