WHAT'S HOT PAPER ROMANCE

A huge revival of wallpaper is coming, and the styles are more extravagant than ever

Today we are experiencing a love affair between walls and their elaborate coverings. With vibrant tones and luxurious embellishments now more prevalent in design, wallpaper has become a popular option to add that sparkle to your

home. Wallpaper is so diverse; it can mesh perfectly with a busy interior or provide an outstanding contrast against simplistic, chic furniture. With so many styles to choose from, the possibilities are endless. Mix and match patterns, have a play with different tones, and let the love affair live on.
