Pattern perfect

Whichever geometric design and pattern combination you choose, it's important to take their size into consideration as mixing pattern sizes correctly is an essential ingredient in achieving balance within the room. It's also a good idea, certainly with wallpaper, to choose a design where the scale works well with the proportions of the room – too small and the room can look cluttered, too big and its likely any impact the wallpaper should have will be lost.

Mood board

PAINT

French Dark Absolute matt emulsion,
£30.50 per 2.5kg, Little Greene
