MODERN METALLICS

Bring grown-up glamour to your home with accents of bronze, silver and gold, says mydeco.com editor Eleanor Joslin.

Inspiration

Silver and gold will always add a touch of sparkle to a room, but designers are giving metallics a makeover by combining warm bronze and golden tones with flashes of silver. The result is glamorous, rather than bling, and you needn't break the bank to get the look.

Key elements

'Metallic peach-pink, along with leaf green and gold, will add a warm, spring-blossom twist to the metallic trend,' says Eleanor. 'Metallic and mirrored materials create a luxurious, feminine ambience, and will give your home the serenity of a crisp spring morning.'

Get the look

'Use accessories such as silk lampshades and cushions in metallic hues with vintage or embellished accents,' says Eleanor. For a bold look, paper a feature wall with shiny wallpaper, then use furnishings and accessories to create layers of gleaming glamour. 'Mismatch elegant tapered candles in different shades,' suggests Eleanor. Tu metallic candles are £1.83 for two, Sainsbury's (0800 636262; sainsburys.co.uk). ▶
