WALLPAPER INFORMATION

Leaf, Lily, Scribble, Step and Oval are hand screen printed. Kew, Peony, Kaleido and Flora are machine printed. Various specialist inks have been used and the result is that some of the patterns have a soft peal, shimmer or gloss affect. These hand screen printed papers are printed in batches and as such are bespoke products. Small orders can normally be fulfilled from stock but there can be an 8 - 10 week lead time.

Oval Shimmer is printed onto a ribbed embossed paper with interference inks. These inks subtly change colour with the light.

All the papers meet class 2 BS standards and as such are suitable for residential use. It is recommended that the papers are hung by a professional and advise a tub adhesive. All pertinent information is printed on the label of each wallpaper roll. These instructions should always be followed.
